

Internship Report Presentation

Web Development Internship at **Sieve Capital**

Piyush Parashar

Roll No. 25SCS1003000911

B.Tech – Computer Science & Engineering (2025-2029)

IILM University, Greater Noida

1 June 2026 – 31 August 2026

Internship Duration: 3 Months

About Me & Sieve Capital

The Student

- **Name:** Piyush Parashar
- **Programme :** B.Tech – Computer Science & Engineering | 2025-2029
- **Roll Number:** 25SCS1003000911
- **Institute:** IILM University, Greater Noida
- **Domain:** Web Development
- **Duration:** 3 Months (1 June – 31 August 2026)

The Organization

- **Sieve Capital:** Tech-driven venture and investment firm
- **Focus:** Modern software engineering and automation solutions
- **Expertise:** High-performance digital platforms, proprietary tools, data-driven systems
- **Internship Model:** Hands-on exposure to production-grade software development
- **Technical Scope:** Full-stack web development, API engineering, database design, cloud infrastructure

Problem Statement, Objectives & Scope

The Gap

Academic coursework teaches programming fundamentals and theory, but production-grade web development requires practical exposure to:

- Responsive, secure, scalable applications
- Backend integration and API design
- Database connectivity and management
- Cloud deployment and CI/CD workflows
- Performance optimization and SEO
- Security best practices and authentication

Core Objectives

- 1 End-to-end web development lifecycle and industry workflows
- 2 Design and build modern, responsive user interfaces
- 3 Deploy applications using cloud platforms and Git/GitHub
- 4 Optimize web performance, SEO, and security best practices

Technology Stack & Development Tools

Frontend

- HTML5
- CSS3 / Tailwind CSS
- JavaScript (ES6+)
- React.js

Version Control

- Git
- GitHub

Hosting & Deployment

- Vercel
- CI/CD Pipelines

Backend & Database

- RESTful APIs
- MongoDB
- PostgreSQL

Dev Tools & AI

- VS Code
- Chrome DevTools
- Gemini AI

System Architecture & Development Workflow

Plan

Sprint planning & requirements

Develop

Code & component building

Review & Test

PR reviews, QA, debugging

Deploy

Cloud hosting & CI/CD

3-Month Internship Journey

Practical Experience & Skills Gained

Technical Skills Developed

Responsive Web Design

Mobile-first development and component-based UI with React.js

API & Database Integration

Frontend-backend connectivity, database design, and data management

Cloud Deployment & CI/CD

Web performance optimization, SEO, and security fundamentals

Engineering Practices Mastered

Git Workflows

Branch management, pull request reviews, and code quality standards

Agile / Scrum

Sprint methodology, cross-device testing, and debugging practices

Team Collaboration

Technical documentation, knowledge transfer, and professional communication

From Classroom to Production

❏ The internship bridged the critical gap between theoretical software engineering and production-grade web application development — providing hands-on exposure to industry-standard tools, collaborative workflows, and professional best practices.

Internship Documentation

Official credentials issued by **Sieve Capital** confirming successful completion of the internship engagement.

Internship Completion Certificate
Sieve Capital | September 6, 2026

Offer Letter / Appointment Confirmation
Sieve Capital | May 2026

Conclusion & Thank You

This three-month internship at **Sieve Capital** successfully bridged the gap between theoretical software engineering and practical, production-grade web application development. Through hands-on project execution, code reviews, and collaborative team engagement, I gained industry-oriented experience in full-stack web development, cloud deployment, and professional engineering practices.

Full-Stack Development

End-to-end web lifecycle, modern responsive UI, component-based architecture

API & Data

Backend API integration, database connectivity, dynamic content management

DevOps & Agile

Git/GitHub workflows, CI/CD pipelines, Scrum sprint methodology

Optimization

Performance tuning, SEO, security best practices, cloud deployment
